

Pavlos Tiftikidis

Senior-Level Web Developer

PROFESSIONAL EXPERIENCE

2021-04 -
Present

Backend Developer

Lioncode Web & Mobile Solutions, Θεσσαλονίκη

- Development of RESTful APIs using the Laravel framework for web and mobile applications.
- Design and implementation of databases (MySQL) with a focus on performance and security.
- Use of Eloquent ORM for efficient database communication.
- Integration of third-party APIs (e.g. Stripe, Google Maps, Odoo) into Laravel applications.
- Collaboration with frontend developers to integrate the UI with backend functionality (REST APIs, JSON responses).
- Development and customization of Magento e-commerce solutions, including the creation of custom modules
- Integration of Magento with third-party systems (ERP, CRM, payments) via REST/SOAP APIs and implementation of custom extensions for business needs.

2019-04 -
2019-11
